

FREE CONTRACEPTION

IN THE PARMA AUSL SERVICES

Did you know that in Emilia-Romagna you can choose, together with a gynecologist or a midwife from the Health Service, the contraceptive method best suited to your needs and receive it free of charge? Here is the useful information to find out about this opportunity!

WHICH CONTRACEPTIVE METHODS

Male and female condoms, hormonal drugs for women (in the form of a pill or patch to be placed on the skin, a ring to be inserted into the vagina or an implant to be inserted under the skin) and spirals

WHO HAS THE RIGHT TO IT

- **Young people up to 26 years old**
- **Women between 26 and 45 years old** in these cases: within 12 months of giving birth and within 24 months of terminating pregnancy, in the presence of exemption due to unemployment or for workers affected by the crisis

You must be registered with the National Health Service and be resident or domiciled in Emilia-Romagna

WHERE

- To the “Youth Spaces” up to and including 19 years of age
- In family clinics from 20 to 45 years old

HOW TO ACCESS

To receive the contraceptive free of charge it is necessary to carry out an information interview and specialist visit in the Parma Local Health Authority clinics.

Emergency contraception (morning after pill)

It is provided free of charge to those entitled to it on weekdays in family counseling centers and on days before holidays and holidays in the hospitals of Parma and Vaio-Fidenza. No reservation required
